

Manish Sharma

Senior Software Engineer

Location: Bengaluru, India GitHub: github.com/manishsharma004 Education: IIT (ISM) Dhanbad

SUMMARY

11+ years building customer-focused products across frontend, backend and distributed systems. Deep hands-on experience with **Java**, **Python**, **React** and **React Native**. Shipped production **RAG**, **GPT** and **STT** pipelines. B.Tech in Computer Science & Engineering, IIT (ISM) Dhanbad.

EXPERIENCE

Senior Frontend Engineer · Sequoia (Murren Consulting)

Jul 2024 — Present

- Partner closely with the Product team to deliver features for CompOS products.
- Guide and mentor fellow developers to ship features with consistently great quality.

ReactJS JavaScript

Senior Software Engineer · SpotLYT (AIBAE Tech.)

Aug 2023 — Present

- Led a team of talented engineers across frontend and backend.
- Designed and built core data pipelines for AI analysis — STT, sentiment analysis and user analytics.
- Led development of microservices and frontend applications end to end.

Python FastAPI Flask NodeJS NestJS PostgreSQL MongoDB OpenAI GPT RAG ReactJS NextJS

Senior Software Engineer · Embibe

Aug 2020 — Aug 2023

- Owned and led multiple features — video playing, user behavior tracking and onboarding — on Embibe's B2C consumer platform, Student Web.
- Integrated the Student Web application into MyJio's Education platform.
- Led development of a chatbot app enabling chat-like interaction for students to watch videos, practice and clear doubts.

ReactJS NextJS Android

Senior Software Engineer · AutoGrid India

Dec 2018 — Apr 2020

- Led the effort to split a monolithic legacy Ruby on Rails application into microservices and Angular SPAs.
- Drove the migration from instance-based deployments to Kubernetes clusters — containerization, auto-scaling and failure recovery.
- Integrated Tableau into the DROMS project, eliminating duplicated effort building charts into internal dashboards.

Angular Ruby on Rails Docker Kubernetes

Senior Software Consultant · Charcoaleats

Jun 2018 — Dec 2018

- Worked on GST invoice integration and upgraded WebSocket infrastructure for POS applications.
- Developed a new POS application using NodeJS, ReactJS and React Native.

React React Native NodeJS

Software Design Engineer · Sokrati Technologies

Jun 2015 — Jun 2018

- Built automated marketing campaign launchers for Google and Facebook.
- Developed microservices powering the Launch UI and automated campaign launchers.

Java Spring Hibernate Kafka ReactJS

CORE SKILLS

PRIMARY

Java · Python · React · React Native · TypeScript

BACKEND

Spring Boot · FastAPI · Flask · Node.js · NestJS

AI / DATA

RAG · OpenAI GPT · STT pipelines · Kafka · PostgreSQL · MongoDB

INFRA

Kubernetes · Docker · Nginx · Redis · ElasticSearch

EDUCATION

B.Tech, Computer Science & Engineering — IIT (ISM) Dhanbad

Jul 2011 — May 2015
